

filmfare ✓ Mansi Bagla

@immansibagla started her film production company Mini Films, after a successful run of her Real Estate Investment Firm, @minihomes.india

This woman who desires to hold the Filmfare 'black lady' someday, has not let lockdown put her spirits down and she says, "Monday is so far from Friday but Friday is so close to Monday, it's the way you look at things and move forward...I feel closer to the real world in this quarantine, I feel proud of my dreams and efforts, the feeling of reaching so far, the strength to remain calm during this phase. Worst times are the best time in disguise, we have to focus on becoming better than bitter. I'm blessed with the best and cannot be grateful enough." She added, "Sky is incomplete without stars, and I believe so are we without God. I have gained the strength to remain calm and composed during a global crisis like this. I'm glad I have the right direction. And like they say, the show must go on..." #mansibagla #minihomes #minifilms #bollywood #dreamcatcher #faith #gratitude
