## Mansi Bagla

Mansi Bagla is creating a steady shift by making selective choices of projects. As a producer and the mind behind its story, Mansi crafted the remarkable film Forensic, and kept the audience on the edge of their seats with its sharp twists. Forensic, as a term, was used earlier in CID; however, it gained familiarity after the film. Recently, she came up with a unique romantic musical, Aankhon Ki Gustaakhiyan. As its creative mind, she weaved emotions that combined the essence of Bollywood's OG romantic era and also brought normalcy to the concept of a visually impaired hero - something that was hardly imagined for a conventional setup.
